Now what? Can we leave it at 4:30 pm? I really don't want to miss this opportunity to speak with them this week.

Diane: To be on the safe side we would like to move it (for the last time) to 5pm. That will give Ralph sufficient time to complete his obligations for the day. I will send out the call in number prior to the call. Thank you. Nola

Just confirmed with my guy, 4:30 is ok with him too. Apparently he spoke to the local EPA guy yesterday about the progress. The private company has been in and started their work.

Thursday at 2:30 pm EST works for me. I am now checking with our On Scene Coordinator (OSC), Ralph Dollhopf. If he is available, we will send you a conference bridge (call in number). Thank you for getting back to me so quickly. Have good evening. Nola

I spoke to Bob, 2:30 on Thursday would work for us if you still need the conference call. I have attached the letter I sent to you as well as the bid from Marine Pollution. Bob said they were on site today and have already started their work. I don't have conference call capabilities (or if I do, don't know how to use them!) so can you initiate the call. I think you have both phone numbers.
